EDUCATION

BSc (Hons) Computing Science, University of Glasgow   Expected June 2026

- Key modules: OOP, Algorithms, Networks, OS, Web Dev

EXPERIENCE/PROJECTS

Software Engineering Team Member   September 2024 – Aug 2025
Off Axis Gigs   *Glasgow, United Kingdom*

- Developed a modern web platform to replace their legacy site, decoupling it from WordPress.
- Automated manual data transfer processes, saving the client 3 hours daily and enabling them to onboard more gigs.
- Engaged in regular Agile Development , version control via Git/GitLab, and code reviews to ensure clean, collaborative development
- Contributed to both frontend and backend development
- Built using technologies such as Django, Python, HTML/CSS, JavaScript

Personal Portfolio Website
aaronmcintyre.co.uk

- Built using React.js, TypeScript, Next.js and Tailwind CSS to ensure a modern, performant, and scalable user experience.
- Deployed with Vercel for seamless CI/CD and optimized global performance
- Responsive, accessible design with focus on usability and clean UI
